SUMMARY

Established in 1957, Wagner Machine, Inc. is a custom machining and fabrication company owned and operated by second- and third-generation family members. We build strong customer relationships to understand their needs and provide quality solutions for current and future manufacturing projects. Our approximately 37,000-square-foot operation supports R&D, prototypes, short runs, and repeat production. With CNC milling, turning, large-part machining, welding, and fabrication, we offer customers a single source for a broad range of manufacturing needs.

CAPABILITIES

- CNC 5-axis horizontal machining: 24.9" × 19.7"
- CNC horizontal machining up to 36" square with a 10-pallet Fastems FMS
- CNC horizontal machining up to 50" square with dual pallets
- CNC horizontal boring up to 146" × 96"
- CNC multi-axis, twin-spindle turning up to 15.75" × 30.71"
- CNC turning up to 37" × 62"
- CNC vertical turning up to 81" × 37"
- CNC double-column machining up to 118" × 62"
- In-house overhead crane capacity up to 15 tons
- Welding to AWS D1.1 and D1.2 and ASME Section IX, including MIG and TIG
- Welding and fabrication facility with horizontal press brake, ironworker, and 100-ton press

EXPERTISE & CERTIFICATIONS

- Industries served include oil and gas, power transmission, steel and metals, mining, energy, hydraulics, aerospace, tire and rubber, valves and pumps, air handling, and construction.
- CNC CMM inspection: Hexagon Global Green 9158, X 35.5" × Y 59" × Z 31.5".
- **ISO 9001:2015 and AS9100D certified.**
- Member of the National Tooling & Machining Association.
- **NTMA Safety Award recipient: 2015, 2016, and 2025.**
